Billet Electronic Valve Bodies from TMC Racing

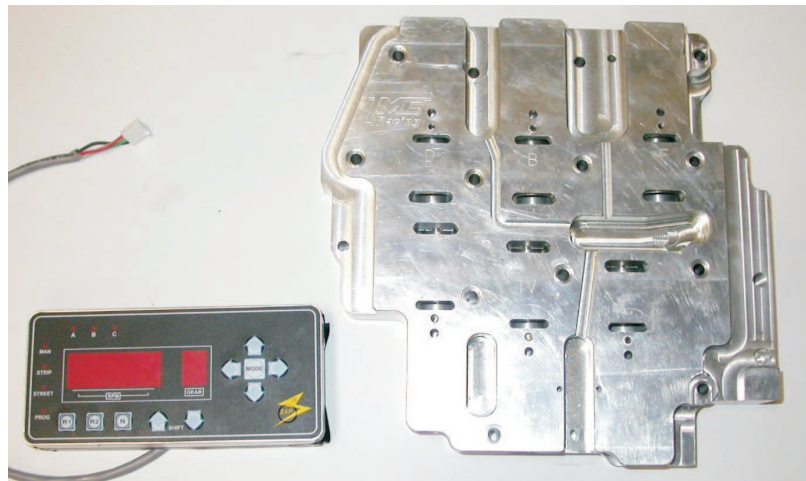

Upgrade your hydraulic transmission with modern electronics and controls for unparalleled performance at the track!

Valve Body Features:

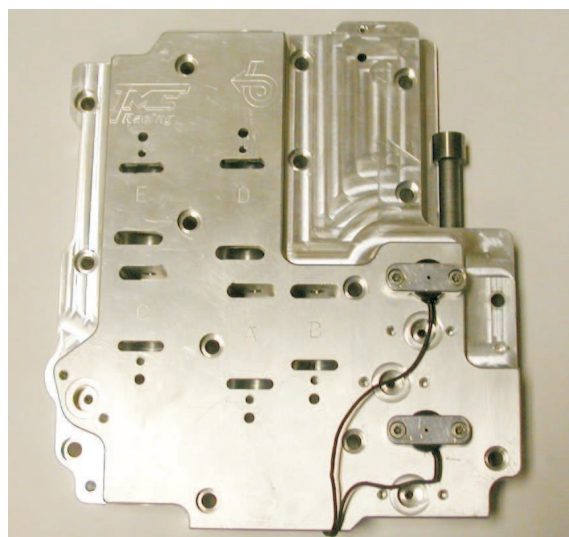

- ▶ Direct solenoid control for the fastest possible shifts.
- ▶ Bolts in place without need to remove transmission.
- ▶ Available with and without manual valve.
- ▶ Available for 2004R, 700-R4, THM350, THM400, 4L80E, & Torque Flight.

Control System Features:

- ▶ Manual Mode: Upshift and downshift at the press of a button on the street or at the track.
- ▶ Strip Mode: User programmable RPM shift points. Stage the car, enable, and the controller will automatically upshift through the gears as you go down the track.
- ▶ Integrated hydraulic trans brake triggered with a switch or by release of the brake pedal.
- ▶ Interfaces easily with Paddle Wheel steering wheel controls.
- ▶ Custom shift patterns available for your application.
- ▶ Dash mounted Gear Display available.
