

Complete Electronic Transmission Packages

Build the ultimate Hot Rod, Street Rod, or Cruiser with our premium transmission drivetrain packages

Why upgrade to an Electronic Transmission?

- ▶ Modern automatics are lighter, more versatile, and can handle the power of modern engines.
- ▶ Why settle for 3 gears? Get off the line and driving performance without sacrificing highway mileage with a 4/5 speed automatic & lockup converter.
- ▶ A properly built modern transmission will last 100k miles or more. This gives you years of worry free performance.
- ▶ Custom programming allows you a cruise and sport/strip mode, paddle wheel shift capability, custom display connectivity, and other options only available from C2C Integration.

Packages Include:

- ▶ Premium assembled transmission powder coated to the color of your choice.
- ▶ Torque Converter built to match your performance specifications.
- ▶ Transmission controller, wire harness, all sensors and custom customer specified shift programming.
- ▶ Transmission cooler, lines and connections.
- ▶ Complete installation and integration into your vehicle.

Transmissions Available:

- ▶ GM: 4L60E/65E/70E, 4L80E/85E, 5L40E, 6L80
- ▶ Allison: 1000/2000, 5 or 6 speed
- ▶ Chrysler: 46RE, 48RE, 5-45RFE, 42RLE, 722.6
- ▶ Ford: 4R70W/75W, 4R100, Torqshift 5R110W
- ▶ ZF: 5HP18, 5HP24, 5HP30

Contact us for applications or transmissions not listed. We have experience with most modern rear and front wheel drive transmissions.

Contact C2C Integration and let us design and install a system for you.
